### **Response to Amendment**

The Examiner respectfully submits a response to the amendment received on 7/7/2004 of application no. 09/987,491 filed on 11/15/2001 in which claims 10-11, and 21 are currently pending. **This Application is allowed.**

### **EXAMINER'S AMENDMENT**

An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it **MUST** be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Paul Gornall (Reg. No. 10921) on 3/7/2005.

Claims 1-9, and 12-20 are cancelled.

### ***Allowable Subject Matter***

**Claims 10-11, and 21 renumbered as claims 1-3, respectively, are allowed.**

Regarding claim 1, the reason for allowance is as follows: the prior art does not disclose or fairly suggest a securable corner surveillance unit wherein the housing is substantially a truncated tetrahedron, having left and right top side facets, a bottom facet, and an intermediate rear facet, formed respectively by sealed truncations of corners that would otherwise be formed by extension of top, left, right, and front surfaces of the unit in combination with all other claimed elements.

Regarding claim 2-3, the reason for allowance is as follows: the claims depend from an allowable independent claim.
